Using your PadFone E

1

Use your PadFone E to enjoy the latest features and technologies of Android 4.3 (Jelly Bean) operating system. Do work and play on your PadFone E to fully appreciate the tons of interactive applications and features, and the seamless connectivity solutions in data sharing and communication that Android 4.3 has to offer.

Basics

IMPORTANT:

- Before you start, ensure that you have read all the safety information and operating instructions in the **User Manual** that comes with the PadFone E package to prevent injury or damage to your device.
- Refer to your **User Manual** that comes with the PadFone E package for instructions on installing the SIM card and charging your device.

NOTES:

- The screenshots are for reference only. Actual screens may vary on your device.
- The home screen varies with the Android OS.
- When upgrading the firmware of your PadFone E, do not insert into or remove from the PadFone E Station.
- When turning on your PadFone E, do not insert into or remove from the PadFone E Station.
- When upgrading the firmware of your PadFone E Station, do not remove the PadFone E.

Download from Www.Somanuals.com. All Manuals Search And Download.

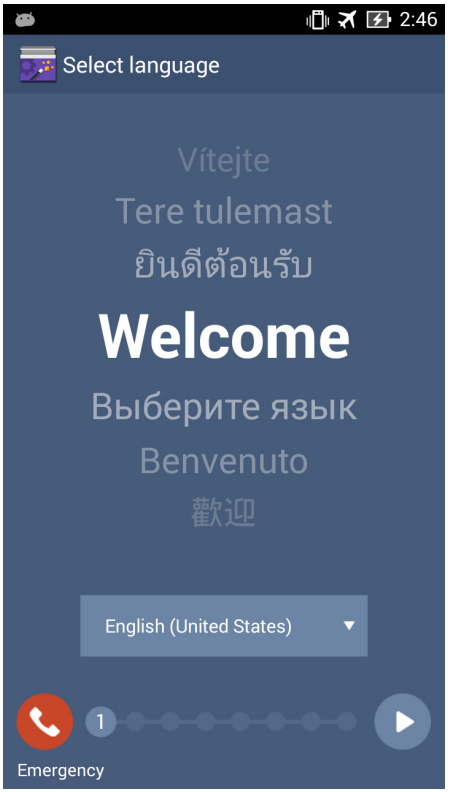
Setup Wizard

The first time you turn on your PadFone E, you'll see the Setup Wizard. Touch and follow the instructions to set up your PadFone device.

NOTE:

You can skip some of the steps and set them up later.

To access it again, **touch** to go to the All apps screen then touch **Setup Wizard** .



Download from Www.Somanuals.com. All Manuals Search And Download.

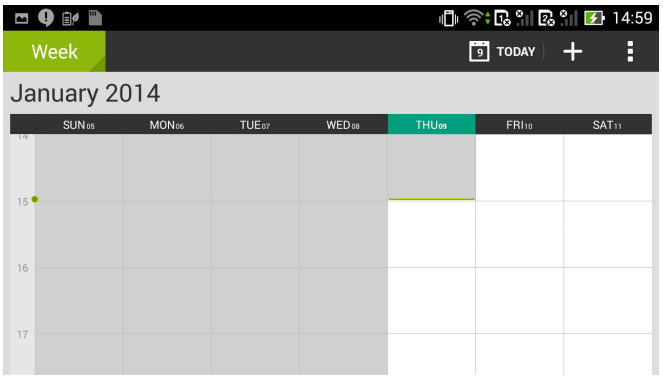
Screen Views

To enable/disable Auto-rotate screen, go to **Settings** > **Display**. You can also touch from **ASUS Quick Settings**.

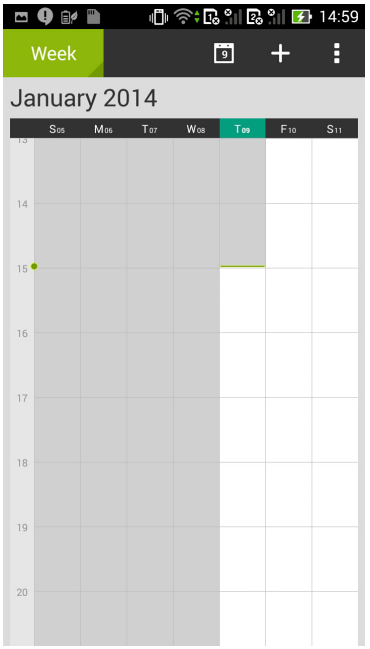
NOTES:

- Auto-rotate function is not supported on the Home Screen and the locked screen of your PadFone E.
- For more details about ASUS Quick Settings, refer to the section **Managing notifications** in Chapter 4.

Landscape view



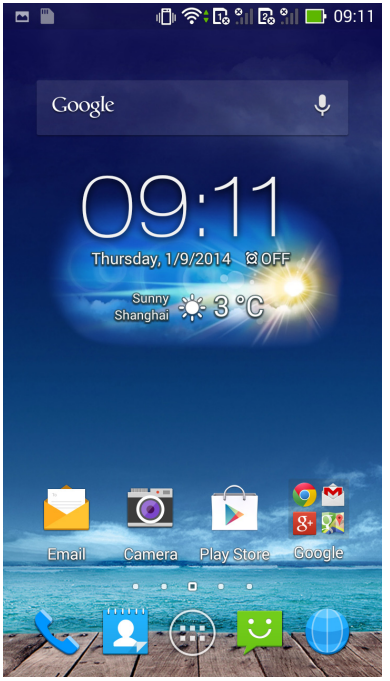
Portrait view



Download from Www.Somanuals.com. All Manuals Search And Download.

Navigating your PadFone E

After you finish setting up your PadFone E, the Home Screen appears.



At the bottom of your PadFone E, you'll find three navigation icons , , . These icons allow you to instantly return to a previous page, jump back to the Home Screen, or launch a recent app.

Icon	Description
	Allows you to go back to the previous screen, until you are in the Home Screen.
	Tap to open your Home Screen.
	Opens a thumbnail list of your most recent apps. To launch an app, touch the thumbnail image. If you wish to remove a thumbnail app, swipe it to the left or right.

Download from Www.Somanuals.com. All Manuals Search And Download.

Making calls

To make a call:

1. Touch on the Home Screen.
2. Key in the number you wish to call.
3. Tap or to dial.

NOTES:

- You can also assign names to the call buttons and modify the functions of the SIM cards from **Settings** > **Dual SIM card settings**.
- If there is only one SIM card installed, press or to dial.

4. Tap to end the call.

Setting up your contacts list

Adding a new contact:

To add a new contact:

1. From the Home Screen, touch then select .
2. To save a new contact to your ASUS PadFone E, tap **Device**. To save a new contact to your SIM card, tap the SIM account.
3. Key in the details of the new contact, then tap **Done**.

Importing contacts:

To import contacts:

1. From the Home Screen, touch then tap **> Manage contacts**.
2. Touch **Import/Export** then tap the SIM that contains the contacts you want to import to your PadFoneE.
3. Tap **Device** then tap the contacts.
4. When done, tap **Import**.

Download from Www.Somanuals.com. All Manuals Search And Download.

Connecting to the world

Connecting to mobile networks

After installing the SIM card, you are ready to use your PadFone E to make/receive voice calls or transmit/receive data. Different countries or regions may have different mobile networks available and you may have to configure your PadFone E to access these networks.

To configure your Mobile networks setting:

1. Do any of the following to go to the Settings screen:
   - Touch to go to the All apps screen then touch **Settings** .
   - Swipe your finger down from the top of the screen to go to **ASUS Quick Settings** then touch .
2. From the Settings screen, touch **More....**
3. Touch **Mobile networks.**

NOTE:

For more details about **ASUS Quick Settings**, refer to the section **Managing notifications** in Chapter 4.

IMPORTANT:

- If your PadFone E does not connect to a network, contact your mobile network carrier for assistance.
- Refer to your **PadFone E User Manual** that comes with the PadFone E package for instructions on how to install a SIM card.

Download from Www.Somanuals.com. All Manuals Search And Download.

Connecting to Wi-Fi networks

Wi-Fi wireless networking technology allows you to exchange data wirelessly over a network. To use Wi-Fi, enable the Wi-Fi feature in your PadFone E and connect to a wireless network. Some wireless networks are secured with a key or protected with digital certificates and requires additional steps to set up; others are open and you can easily connect to them.

TIP:

Turn OFF Wi-Fi when you're not using it to help save battery power.

To enable Wi-Fi and connect to a Wi-Fi network:

1. Do any of the following to go to the Settings screen:
   - Touch to go to the All apps screen then touch **Settings** .
   - Swipe your finger down from the top of the screen to go to **ASUS Quick Settings** then touch . You can also touch **Wi-Fi** from **ASUS Quick Settings** to directly enable/disable Wi-Fi.
2. Slide the Wi-Fi switch to **ON**. When enabled, your PadFone E scans for available Wi-Fi networks.
3. Touch **Wi-Fi** to display list of available Wi-Fi networks nearby. Secured networks are indicated with a lock icon.
4. Touch a network name to connect to it. If the network is secured or protected, you are prompted to key in a Password or key in other credentials.

NOTE:

For more details about **ASUS Quick Settings**, refer to the section **Managing notifications** in Chapter 4.

IMPORTANT:

If your PadFone E finds a network that you have connected to previously, it automatically connects to it.

Download from Www.Somanuals.com. All Manuals Search And Download.

Using Bluetooth

Enabling or disabling Bluetooth in your device

Bluetooth is a wireless standard used for exchanging data over short distances. Bluetooth exists in many products, such as smartphones, computers, tablet devices, and headsets.

Bluetooth is very useful when transferring data between two or more devices that are near each other.

The first time you connect to a Bluetooth device, you must pair it with your PadFone E.

TIP:

Turn OFF Bluetooth in your PadFone E when you're not using it to help save battery power.

To enable or disable Bluetooth in your PadFone E, you can do any of the following:

- Touch to go to the All apps screen then touch **Settings** . Slide the Bluetooth switch to **ON** / **OFF**.
- Swipe your finger down from the top of the screen to go to **ASUS Quick Settings**, touch **Bluetooth** .

Download from Www.Somanuals.com. All Manuals Search And Download.

Pairing your PadFone E with a Bluetooth device

Before you can connect to a device, you must first pair your PadFone E to that device. Once paired, the devices stay paired unless you unpair them or turn off Bluetooth.

To pair your PadFone E to a device:

1. Touch to go to the All apps screen then touch **Settings** . Slide the Bluetooth switch to **ON**.
2. Touch **Bluetooth** to display all available Bluetooth devices within range. If the device you want to pair with is not in the list, ensure that its Bluetooth feature is turned ON and set as Discoverable. See the technical documentation that came with the device to learn how to turn its Bluetooth ON and how to set it to discoverable.
3. If your PadFone E has finished scanning before your Bluetooth device is ready, touch **Search for devices**.
4. In the list of available devices, touch the Bluetooth device you want to pair with. Follow the succeeding screen instructions to complete the pairing. If necessary, refer to the technical documentation that came with the device.

Connecting your PadFone E to a Bluetooth device

After you have paired your PadFone E to a Bluetooth device, you can easily reconnect to it again manually, after it is back in range.

To connect:

1. Touch to go to the All apps screen then touch **Settings** . Slide the Bluetooth switch to **ON**.
2. In the list of **PAIRED DEVICES**, touch the name of the paired device.

Download from Www.Somanuals.com. All Manuals Search And Download.

Unpairing and configuring a Bluetooth device

To unpair or configure a Bluetooth device:

1. Touch to go to the All apps screen then touch **Settings** . Slide the Bluetooth switch to **ON**.
2. Touch **Bluetooth** to display the Bluetooth settings.
3. Touch the Bluetooth Quick Settings icon beside the connected Bluetooth device you want to unpair or configure.
4. From the Bluetooth Quick Settings screen, you can do any of the following:
   - Touch **Unpair** to unpair the device.
   - Touch **Rename** to rename the Bluetooth device.
5. Touch when you're finished.

Download from Www.Somanuals.com. All Manuals Search And Download.

Using your PadFone E Station

2

Install your PadFone E into your PadFone E Station to extend its battery life and turn it into a tablet device. The screen view of the PadFone E Station rotates automatically when you hold your PadFone E Station horizontally to vertically, and vice versa.

IMPORTANT:

- Before you start, ensure that you have read all the safety information and operating instructions in the **User Manual** that comes with the PadFone E package to prevent injury or damage to your device.
- Refer to your **PadFone E Station Quick Start Guide** for instructions on inserting your PadFone E into the PadFone E Station.

NOTES:

- The images used are for reference only and may look different on your PadFone E Station.
- The Home Screen may update and change with the version of the Android OS.

Basics

Unlocking your device

To unlock your device, touch and drag the lock icon out of the circle to the open locked icon.

Home Screen

Download from Www.Somanuals.com. All Manuals Search And Download.

Touching and typing

3

Using gestures

Use your fingers to launch apps, move icons, select menu items, press buttons, type on the onscreen keyboard, and perform other useful gestures on your PadFone E device's touchscreen.

To key in or type something, touch the part where you need to type and the onscreen keyboard will pop up.

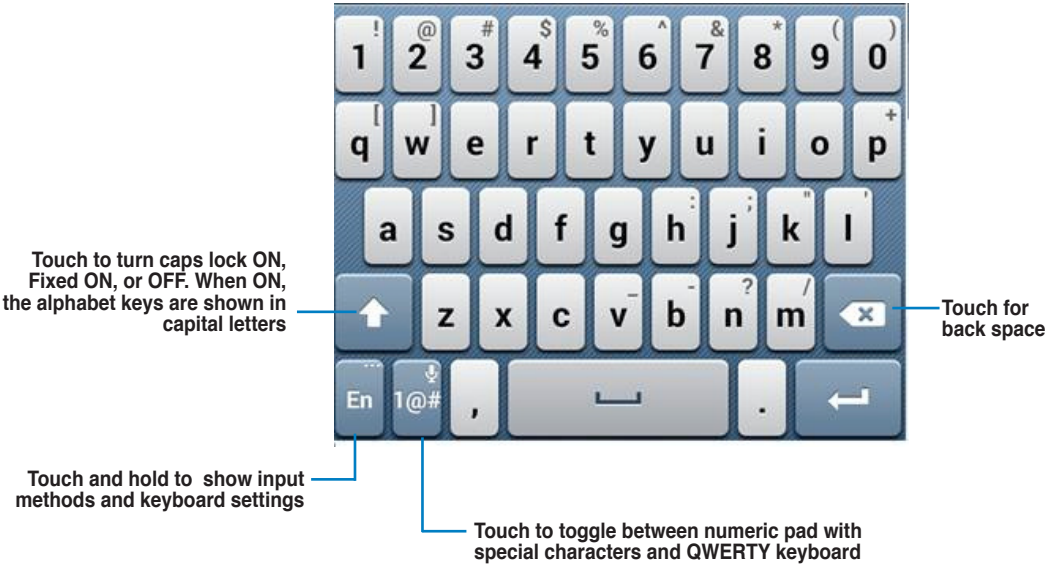
The following table describes more useful gestures.

Gesture	Description
Pinch	Place two fingers on the screen and spread them apart to zoom in and bring them together to zoom out. This gesture can be used in selected apps, including Maps, Gallery, and Browser.
Drag	Touch and hold an icon or item then, without lifting your finger, move your finger on the screen to move the icon or item.
Touch and hold	Touch and hold an item until an action occurs.
Swipe or slide	Quickly move your finger across the screen in one sweeping motion.

Download from Www.Somanuals.com. All Manuals Search And Download.

Using the onscreen keyboard

You can type text using the onscreen keyboard. In most apps, the onscreen keyboard appears automatically when needed. In other apps, you can touch where you need to type to open the onscreen keyboard.



While typing on the onscreen keyboard, the keyboard displays suggestions that may match the text that you need. Touch a suggestion to use it.

Download from Www.Somanuals.com. All Manuals Search And Download.

Using Google voice typing

Google voice typing uses Google's speech-recognition technology, that converts spoken words into text input. You must be connected to the Internet when using this feature.

As you speak, the converted text is underlined and you can continue speaking to keep it, or you can delete it.

To use Google voice typing:

1. Touch text field where you want to type text.
2. Depending on the app you're using, you can do either of the following:
   - If you see the microphone icon beside the text field, touch it.
   - If the onscreen keyboard is open, touch .
3. When you see the microphone icon, speak clearly what you want to type. When you pause, Google voice typing transcribes the text you spoke and displays it on the text field.

TIPS:

- Say "period", "comma", "question mark", or "exclamation point" to type these punctuation marks.
- Touch the Backspace key to delete the underlined text.

Download from Www.Somanuals.com. All Manuals Search And Download.

Using apps and widgets

4

You can seamlessly use apps between your PadFone E and PadFone E Station.

NOTES:

- PadFone E and PadFone E Station are purchased separately.
- Some downloaded apps may work on your PadFone E but may not work on your PadFone E Station, and vice versa.

Using apps on the PadFone E

Managing Apps

App shortcut

You can create shortcuts for your favorite apps on your PadFone E Home Screen.

1. Touch to go to the All apps screen.
2. From the All apps screen, touch and hold the icon of the app you wish to move then drag and place the app on the Home Screen.

App info

You can view the detailed app information while you are creating a shortcut for the app. While holding an app from the All apps screen to the Home Screen, the **App info** will appear on the top of the Home Screen page. Drag the app to **App info** to display its detailed information.

Download from Www.Somanuals.com. All Manuals Search And Download.

Launching apps

Touch to display all your apps. The main apps screen is where you can see all your apps. From the main apps screen you can:

- Touch an icon to launch an app.
- Swipe the screen to display more apps.
- Drag an app icon into the Home Screen.
- Explore widgets.
- Get more apps from the Play Store.

Messaging

Touch to compose and send a message.

Surfing the web

Touch to launch the browser and surf the web.

Download from Www.Somanuals.com. All Manuals Search And Download.

Managing notifications

Notifications alerts you about new messages, calendar events, media service connections, alarms, and more.

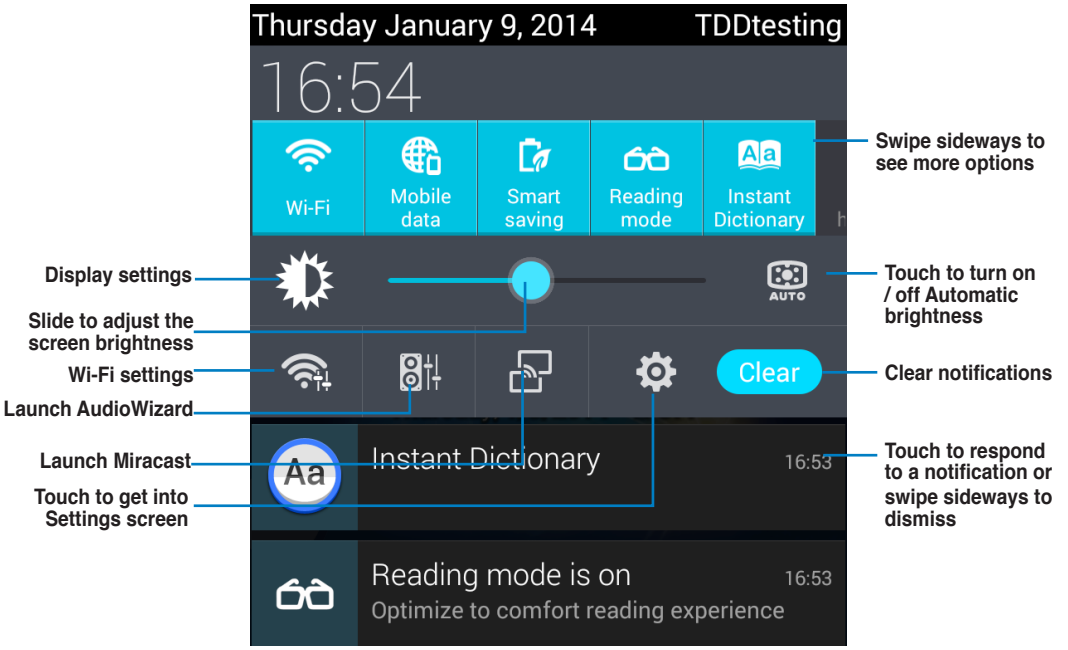
Enable the ASUS Quick Settings app to see more and do more from your Notifications area.

NOTES:

- If ASUS Quick Settings is not enabled, go to the All Apps screen, touch then select **ASUS customized settings** and enable **Use ASUS Quick Setting**.
- Depending on your sound settings, you will also hear a sound at the same time a notification icon is displayed on the top left of your screen - everytime a new notification arrives.

To see your notifications, swipe your finger down from the top of the screen.

ASUS Quick Settings



Download from Www.Somanuals.com. All Manuals Search And Download.

	Description
	Touch to enable or disable the Wi-Fi connection.
	Touch to enable or disable the Mobile Data function.
	Touch to enable or disable the Smart Saving function.
	Touch to enable or disable the Reading Mode function, which allows you to adjust the screen or text of your chosen apps for your reading enjoyment.
	Touch to enable or disable the Instant Dictionary app.
	Touch to enable or disable the Wi-Fi Hotspot function.
	Touch to enable or disable the Bluetooth connection.
	Touch to enable or disable the GPS function.
	Touch to enable or disable the sound, vibrate, or mute mode.
	Touch to enable or disable the auto-rotate screen feature.
	Touch to enable or disable the Airplane mode.
	Touch to enable or disable the Auto-sync function.

Download from Www.Somanuals.com. All Manuals Search And Download.

Searching your PadFone E or web

Use the Google Search bar at the top of your Home Screen to help you find anything that you need from your PadFone E or from the web. To start searching, you can do either of the following:

- Touch Google on the search bar then key in your search item. As you key in your search item, Google lists suggestions that may match your search, touch a suggestion to search for it immediately or touch the arrow beside it to add the term into the search field.
- Touch then when prompted to **Speak now**, speak clearly the item you're searching.

Taking pictures

With the camera app, taking pictures and videos with your PadFone E is fun and easy.

The camera app works with two cameras, one 1.2 megapixel camera at the front of your device and one 13 megapixel camera at the rear.

The front camera allows you take pictures and videos, while the rear camera allows you to take high resolution pictures and videos. The rear camera also allows you to take high resolution pictures and videos. The rear camera also allows you to take pictures in Panorama mode, where you can pan across a subject to create a single picture.

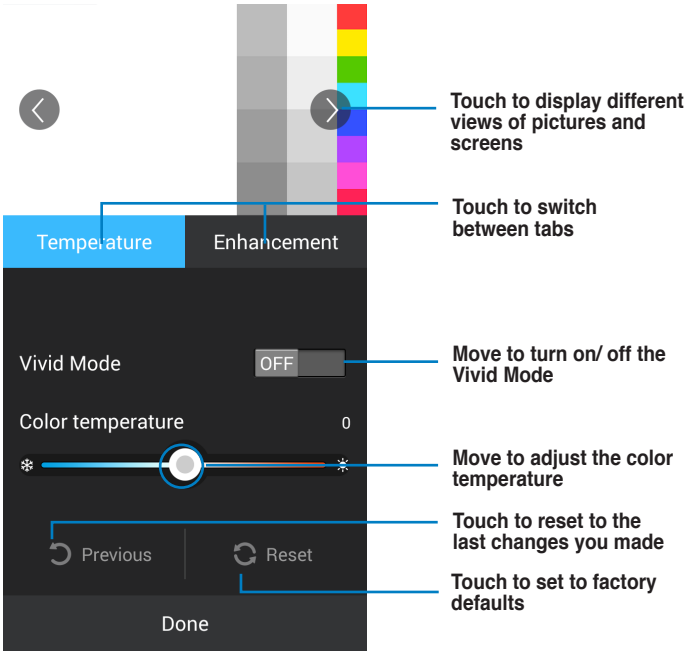
You can view your pictures and videos in the Gallery app.

Touch on the Home Screen, then touch to start taking pictures or touch to start taking video.

Download from Www.Somanuals.com. All Manuals Search And Download.

ASUS Splendid

ASUS Splendid allows you to easily adjust the display settings.



To use ASUS Splendid:

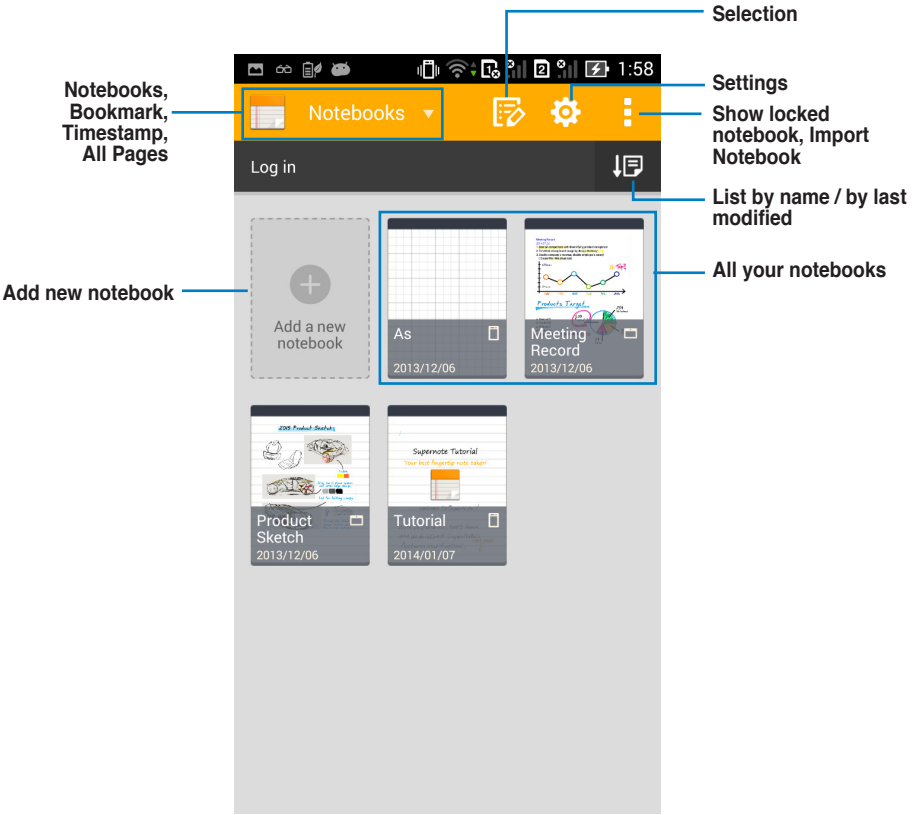
1. Touch to go to the All apps screen then touch **Splendid** .
2. Adjust the screen color temperature and contrast through the **Temperature** and **Enhancement** taps.
3. Touch **Done** to apply the changes.

Download from Www.Somanuals.com. All Manuals Search And Download.

SuperNote

SuperNote is a convenient app used for writing and painting on your PadFone E. You can take notes, send instant messages, draw sketches, create e-cards with audio recordings or diaries with video, and a lot more.

To launch SuperNote, touch on the Home Screen.



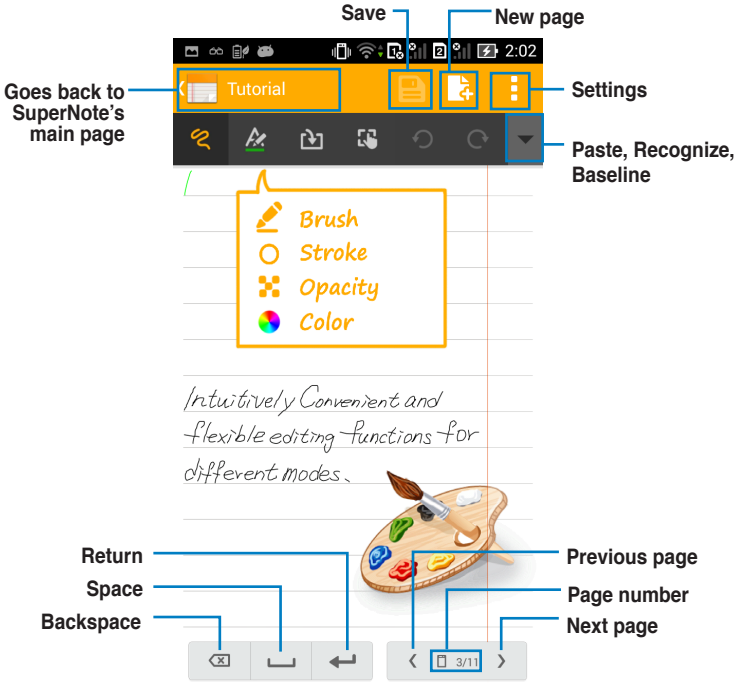
Download from Www.Somanuals.com. All Manuals Search And Download.

Using SuperNote

To create a new notebook:

1. Touch **Add a new notebook**.
2. Key in a name for the file and choose the notebook type to start writing on the page.

The following screen describes the SuperNote screen features on your PadFone E.



NOTE:

For more details on using SuperNote on your PadFone E, tap **Tutorial**.

Download from Www.Somanuals.com. All Manuals Search And Download.

Using apps on the PadFone E Station
Managing Apps

App shortcut

You can create shortcuts for your favorite apps on your PadFone E Station Home Screen.

1. Touch to go to the All apps screen.
2. From the All apps screen, touch and hold the icon of the app you wish to move then drag and place the app on the Home Screen.

App info

You can view the detailed app information while you are creating a shortcut for the app. While holding an app from the All apps screen to the Home Screen, the **App info** will appear on the top of the Home Screen page. Drag the app to **App info** to display its detailed information.

Download from Www.Somanuals.com. All Manuals Search And Download.

Removing App shortcuts from Home Screen

You can remove app shortcuts from your PadFone E Home Screen. The original app will remain in your **All apps** screen. To remove an app in your Home Screen:

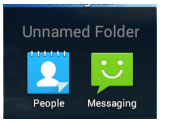
1. Touch and hold an app on your Home Screen until **X Remove** appears.
2. Drag the app to **X Remove** to remove it from the Home Screen.

Download from Www.Somanuals.com. All Manuals Search And Download.

App Folder

Create folders to organize your applications and shortcuts on your PadFone E Station Home Screen.

1. On your PadFone E Station's Home Screen, touch and drag an app or shortcut onto another app and a folder will appear.
2. Touch the new folder and tap **Unnamed Folder** to rename the folder.

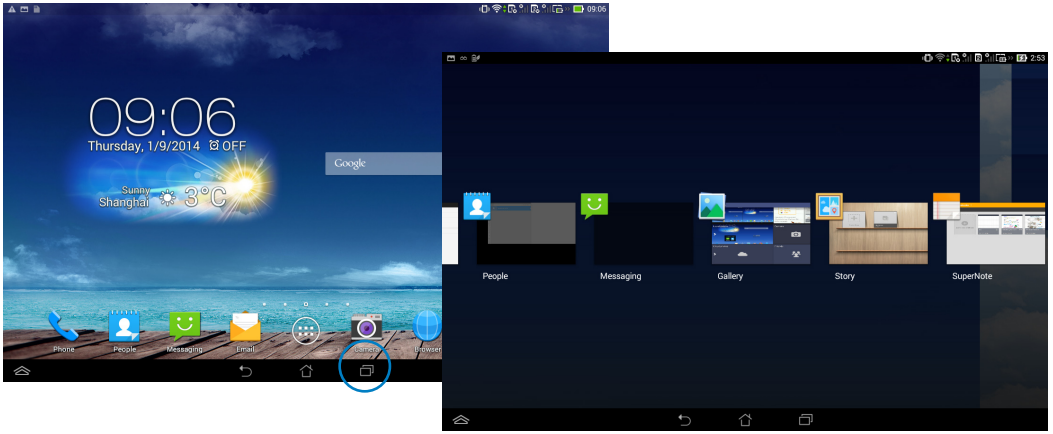


Download from Www.Somanuals.com. All Manuals Search And Download.

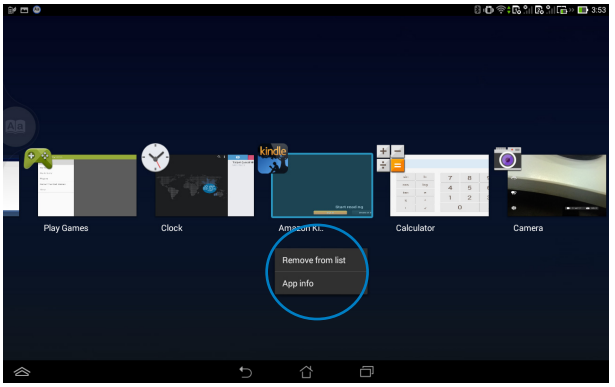
Recent Apps

The **Recent Apps** screen allows you to view a list of app shortcuts based from your recently launched apps. Using the **Recent Apps** screen, you can easily go back to or switch between the apps you recently launched.

1. Touch at the bottom of the Home Screen.



2. Swipe to the left or to the right to view **Recent Apps.** Swipe a recent app up or down to remove from the list.
3. Touch and hold a recent app to display the menu. Select to remove app from list or display app information.

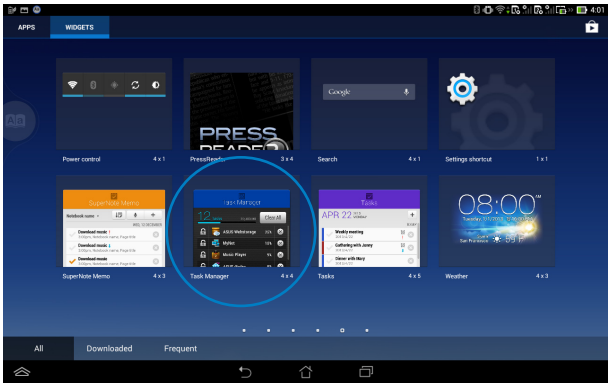


Download from Www.Somanuals.com. All Manuals Search And Download.

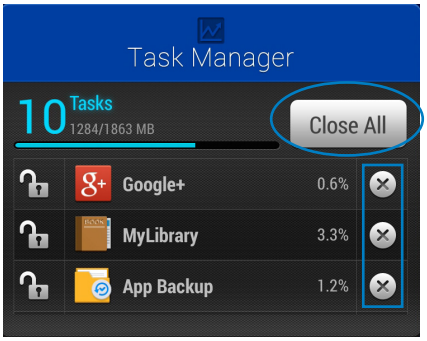
Task Manager

ASUS Task Manager displays a list of currently running utilities and apps and their usages in percentages on your PadFone E Station.

1. Touch to go to the All apps screen.
2. Touch **WIDGETS** to display the widgets menu.
3. Touch and hold **ASUS Task Manager** to display the ASUS Task Manager box on the Home Screen.



4. Touch and hold the widget to display the sizing brackets. Pull the sizing bracket upward or downward to show the complete list of tasks.
5. Tap beside each running app to close the app. Touch **Close All** to close running apps all at once.



Download from Www.Somanuals.com. All Manuals Search And Download.

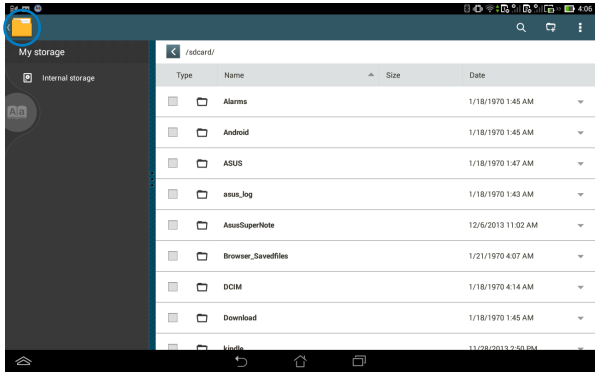
File Manager

File Manager allows you to easily locate and manage your data either on the internal storage device or the connected external storage devices.

To access the internal storage device:

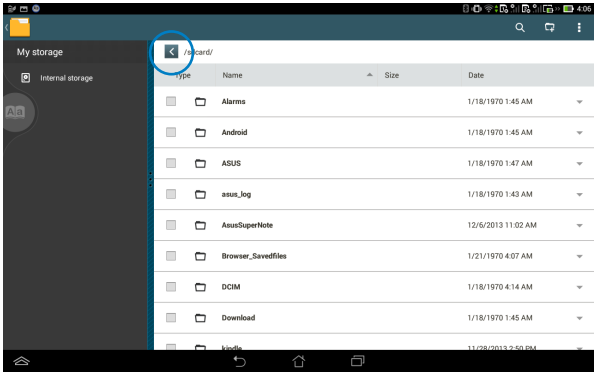
1. Touch to go to the **All apps** screen.
2. Go to **All Apps** screen, touch **File Manager**, then go to **My Storage.**

3. The Internal Storage (/sdcard/) and any connected external storage devices (/Removable/) are displayed on the left panel. Touch the source icon on the left panel to display the content list, and touch to select an item.



Download from Www.Somanuals.com. All Manuals Search And Download.

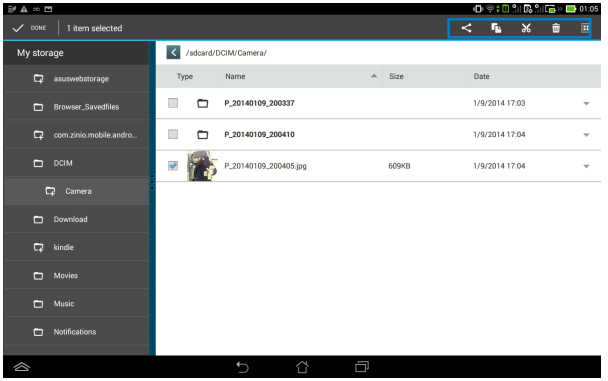
4. Touch the **Return** folder icon to return to the root directory of **My Storage.**



To copy, cut, delete, or share files:

Tick the file you wish to copy, cut, share, or delete and touch the action icon found at the tool bar on the upper right corner of the File Manager screen.

You can also tick the file and drag/drop it to your desired destination folder.



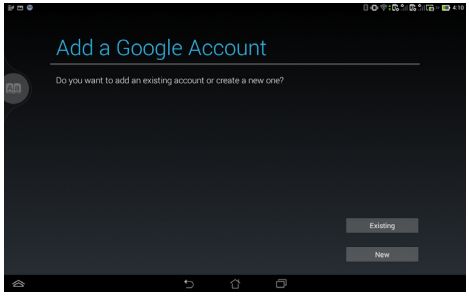
Download from Www.Somanuals.com. All Manuals Search And Download.

Play Store

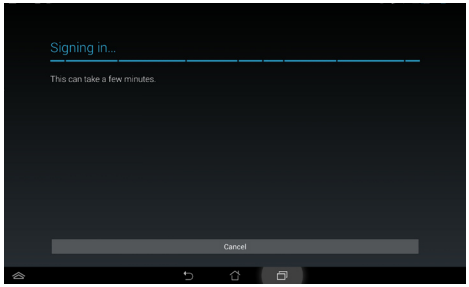
Access lots of fun games and tools in the Play Store using your Google account. If you don't have a Google account, please create one.

To access the Play Store:

1. Touch to go to the All apps screen.
2. From the All apps screen, tap **Play Store** .
3. You need a Google account to access Google Play. If you don't have an existing account, tap **New**.

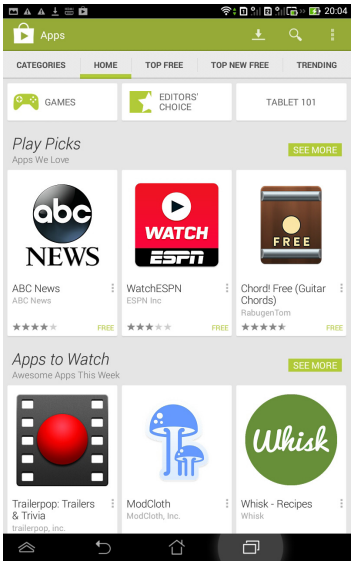


4. Type your **Email** and **Password** to **Sign in** if you already have an account.



Download from Www.Somanuals.com. All Manuals Search And Download.

5. After signing in, you can start downloading and adding apps to your device from the Play Store.



NOTES:

- You cannot restore uninstalled apps, but you can login with the same Google account and download them again.
- There are both free and paid applications in Google Play Store .

Download from Www.Somanuals.com. All Manuals Search And Download.

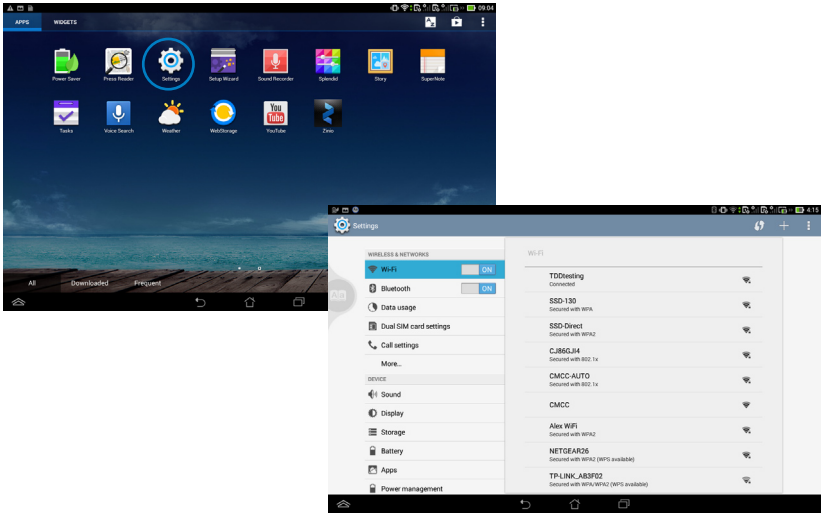
Settings

Settings screen allows you to configure the settings of your PadFone E Station, including **Wireless & networks, Device, Personal, Accounts,** and **System** settings. Touch the tabs on the left to switch screens and do the configurations.

There are two ways to go to the **Settings** screen.

From the All apps screen:

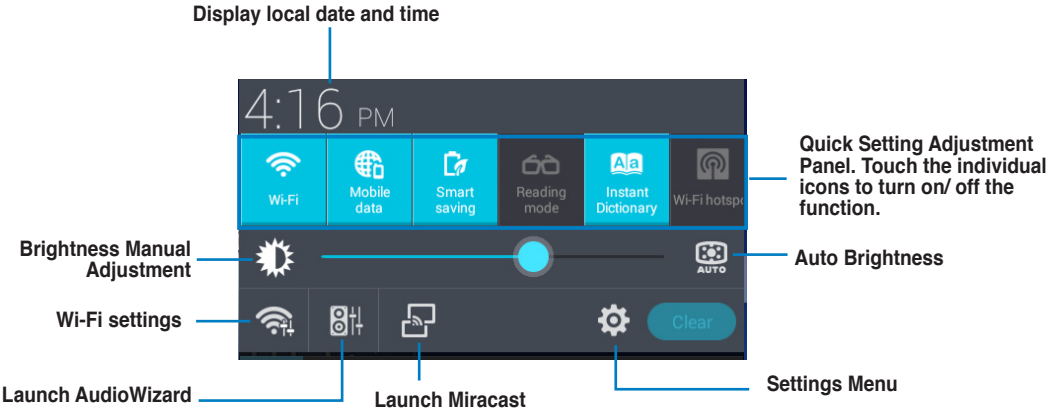
Touch **Settings** to display the settings menu.



Download from Www.Somanuals.com. All Manuals Search And Download.

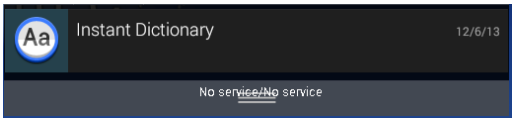
From **ASUS Quick Settings:**

Swipe your finger down from the top of the screen to launch the **ASUS Quick Settings** panel.



Notification Panels

Notification panels will appear under the Quick Setting panel for alerts or updates in apps, incoming emails, and utillity status.



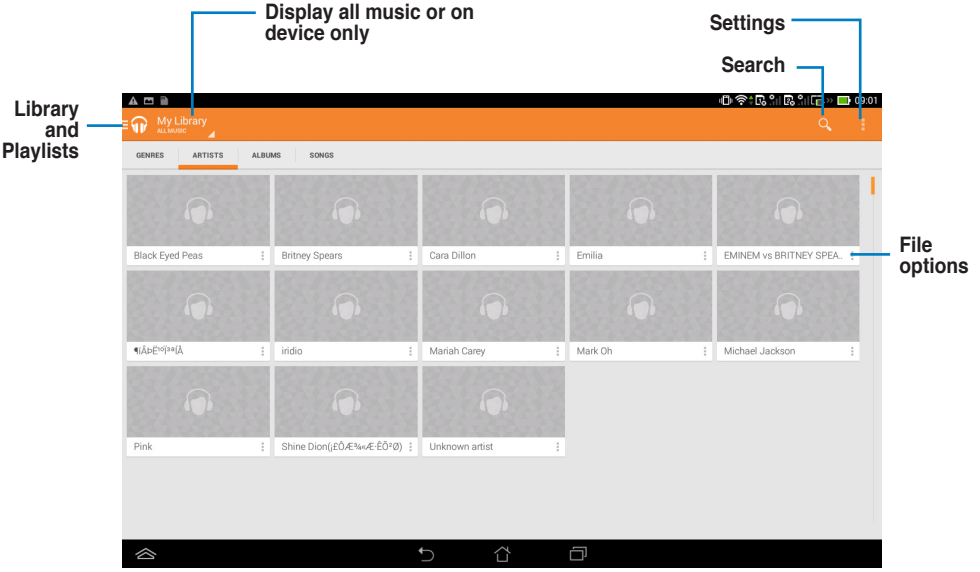
IMPORTANT:

Swipe a notification to the right or to the left to remove item from the list.

Download from Www.Somanuals.com. All Manuals Search And Download.

Music

Touch **Play Music** in the **Google** Folder on the Home Screen to play your music files. This app automatically collects and lists all the audio files stored in your PadFone E.



Supported audio and video formats for playback	
Audio	AAC LC/LTP, HE-AACv1 (AAC+), HE-AACv2 (enhanced AAC+), AMR-NB, AMR-WB, MP3, FLAC, MIDI, PCM/WAVE, Vorbis, WAV a-law/mu-law, WAV linear PCM
Video	H.263, H.264, MPEG-4, VP8
Supported audio and video formats for encoding	
Audio	AAC LC/LTP, AMR-NB, AMR-WB
Video	H.263, H.264, MPEG-4

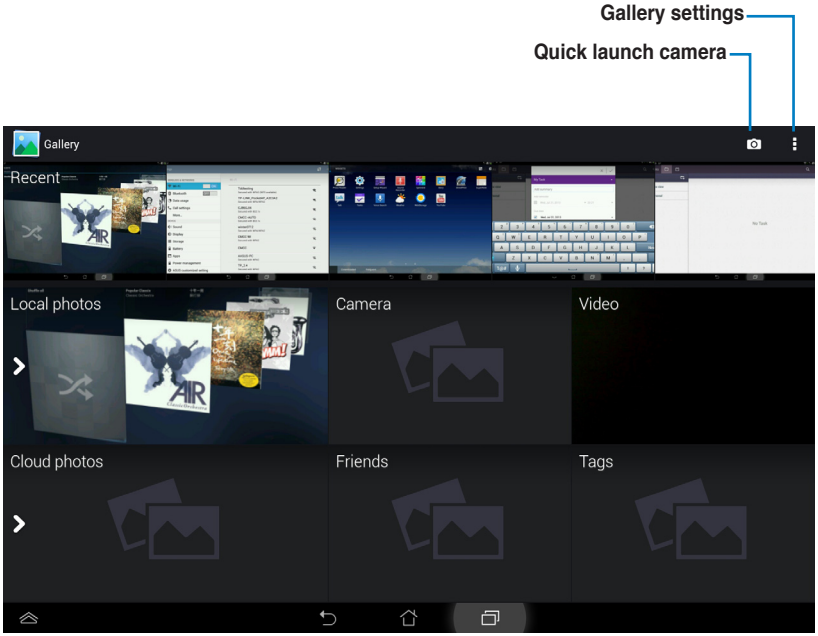
Download from Www.Somanuals.com. All Manuals Search And Download.

Gallery

Touch **Gallery** on the All apps screen to browse for images or video files. This app automatically collects and displays all the images and video files stored in your PadFone E.

From the Gallery, you can display images in a slideshow or touch to select for image or video files.

You can also use the menu buttons on the upper right corner of the Gallery screen to sort the files by album, by location, by time, by people, or by tags.

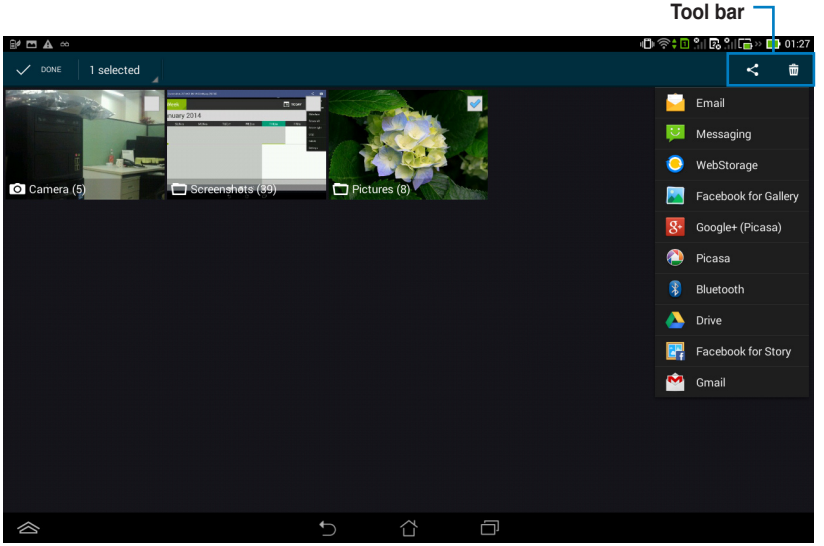


Download from Www.Somanuals.com. All Manuals Search And Download.

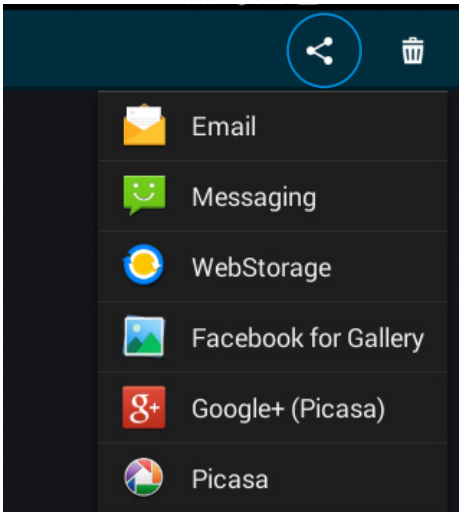
Sharing and deleting albums

Touch and hold an album in the Gallery until the Tool bar on top appears.

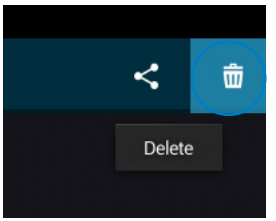
Using the Tool bar options, you can upload, delete, or share selected albums online.



Share the selected album through ASUS Webstorage, Bluetooth®, Gmail®, and more



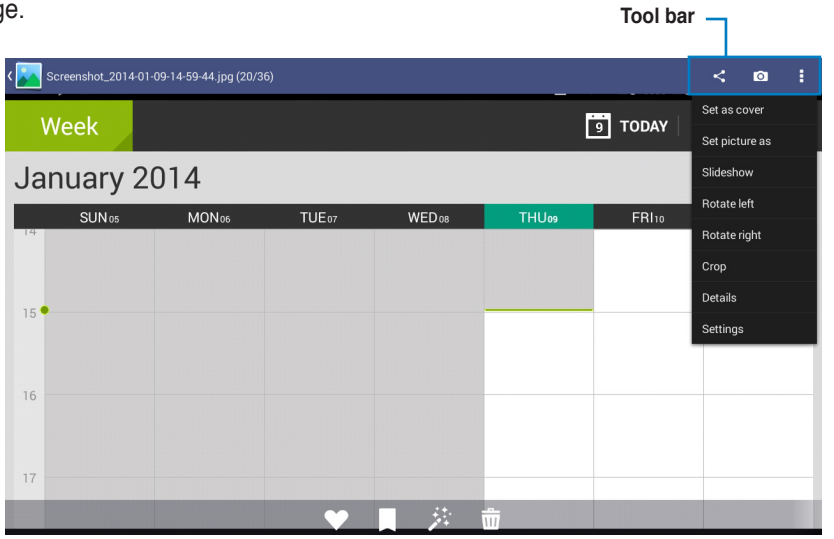
Delete the selected album

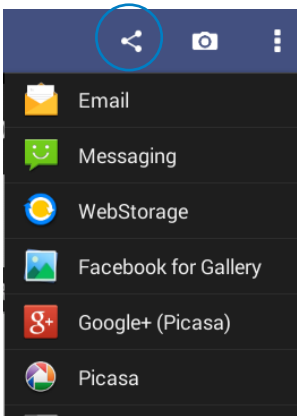


Download from Www.Somanuals.com. All Manuals Search And Download.

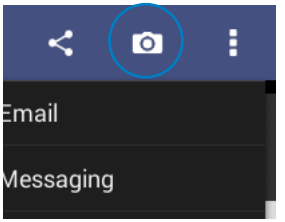
Sharing, deleting, and editing images

Touch an image in the Gallery and use the tool bar on the upper right corner to share, delete, or edit a selected image.

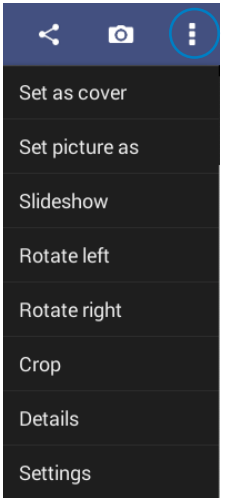




Share the selected album through Amazon Kindle, ASUS Webstorage, Bluetooth®, and more



Quick launch camera



Check the image information, and edit the selected image

CAUTION!

You cannot restore a deleted file.

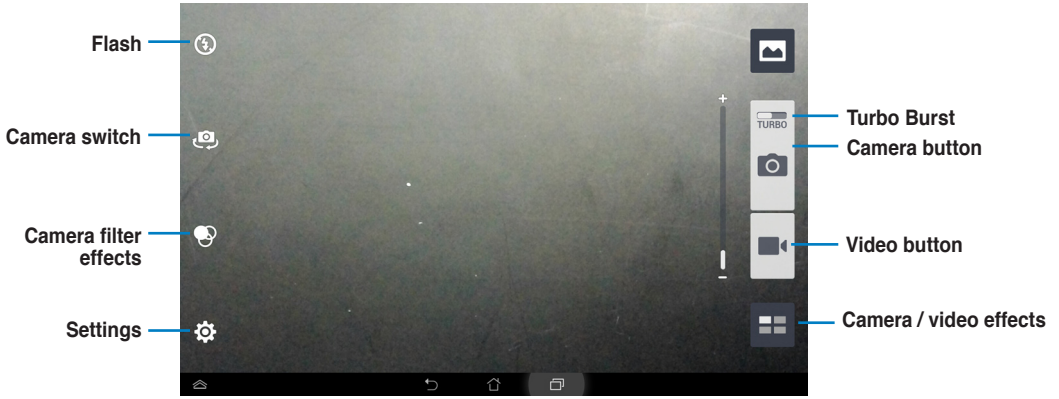
Download from Www.Somanuals.com. All Manuals Search And Download.

Camera

Touch **Camera** from the Home Screen to take pictures or record videos. You can use the front camera or the back camera to take pictures or record videos.

The image and video files are saved to **Gallery**.

Camera/video mode



The **Camera** app also allows you to take multiple pictures in quick succession using Turbo Burst feature. With this feature, you can select the best photos or arrange them in a sequence.

To use this feature, move **TURBO** slider to the right then tap and hold .

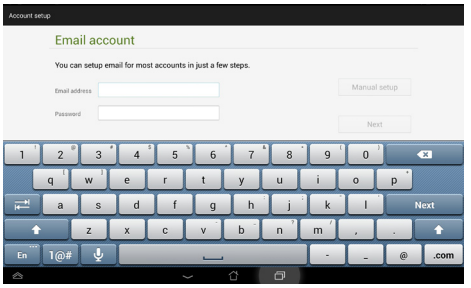
Download from Www.Somanuals.com. All Manuals Search And Download.

Email

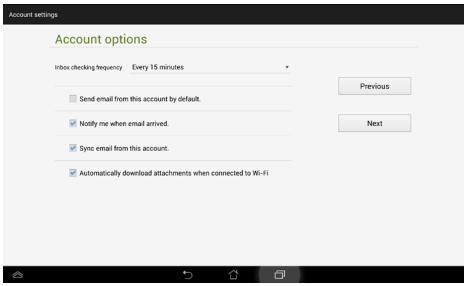
Email allows you to add several e-mail accounts and conveniently browse and manage your e-mails.

To set up an email account:

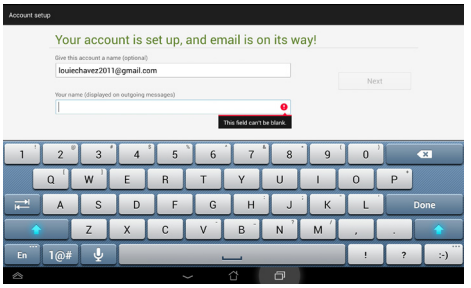
1. Touch to go to the All apps screen.
2. Touch **Email** to launch the email app.
3. From the email app screen,key in your **Email address** and **Password**, then touch **Next**.



4. Wait while your PadFone E automatically checks your incoming and outgoing mail server settings.
5. Configure the **Account options** and touch **Next**.



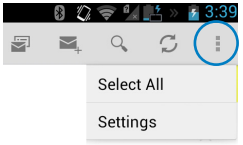
6. Provide a name for the account and key in the name you want displayed on the outgoing messages. Touch **Next** to log into your mail inbox.

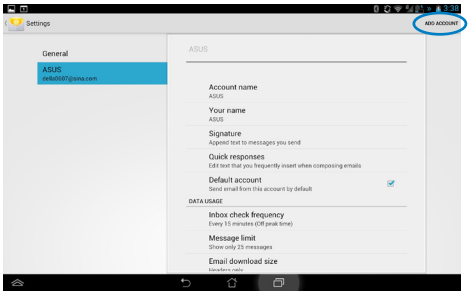


Download from Www.Somanuals.com. All Manuals Search And Download.

To add email accounts:

1. Touch to go to the All apps screen, touch **Email** and login using the account that you've previously set up.
2. Touch **Settings** on the upper right corner to display the preferences for this account.
3. Touch **Add account** on the upper right corner to add another account.





NOTE:

You can include all your e-mail accounts in **Email**.

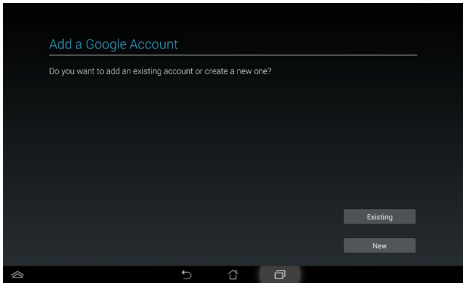
Download from Www.Somanuals.com. All Manuals Search And Download.

Gmail

Gmail (Google mail) allows you to access your Gmail account, receive, and compose e-mails.

To set up a Gmail account:

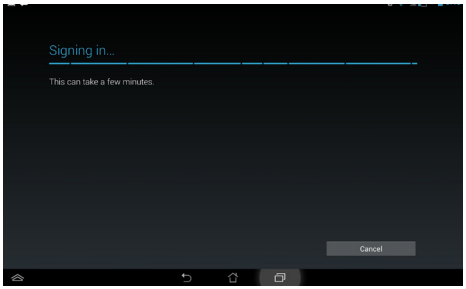
1. Touch **Gmail** from the **All apps** screen. Touch **Existing** and type your existing **Email** and **Password**, then touch **Sign in**.



NOTE:

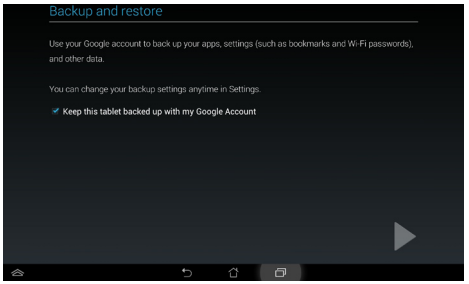
Touch **New** if you do not own a **Google Account**.

2. Wait while your PadFone E communicates with Google servers to set up your account.



Download from Www.Somanuals.com. All Manuals Search And Download.

3. You can use your Google account to backup and restore your settings and data. Touch to sign in to your Gmail.



IMPORTANT:

If you have several e-mail accounts in addition to Gmail, use **Email** to set up and access all your e-mail accounts at same time.

Using PadFone E widgets

Adding widgets

Widgets are useful and fun applications that brings information and services conveniently to your Home Screen at-a-glance. You can find them in the Widgets tab in the All Apps screen, ready to be moved into your Home Screen.

To see your widgets, touch on your Home Screen then touch the Widgets tab at the top of screen.

From the main Widgets screen, you can:

- Drag a widget to another screen.
- Swipe left or right to move between screens and view more widgets.

IMPORTANT:

- You may be prompted to perform additional tasks (such as registration, activation) before you can use a selected widget.
- If there is not enough room on the screen where you placed a widget, the widget won't get added to that screen.

To remove a widget:

- Touch and hold the widget until **X Remove** appears then without lifting your finger, drag the widget into **X Remove**.

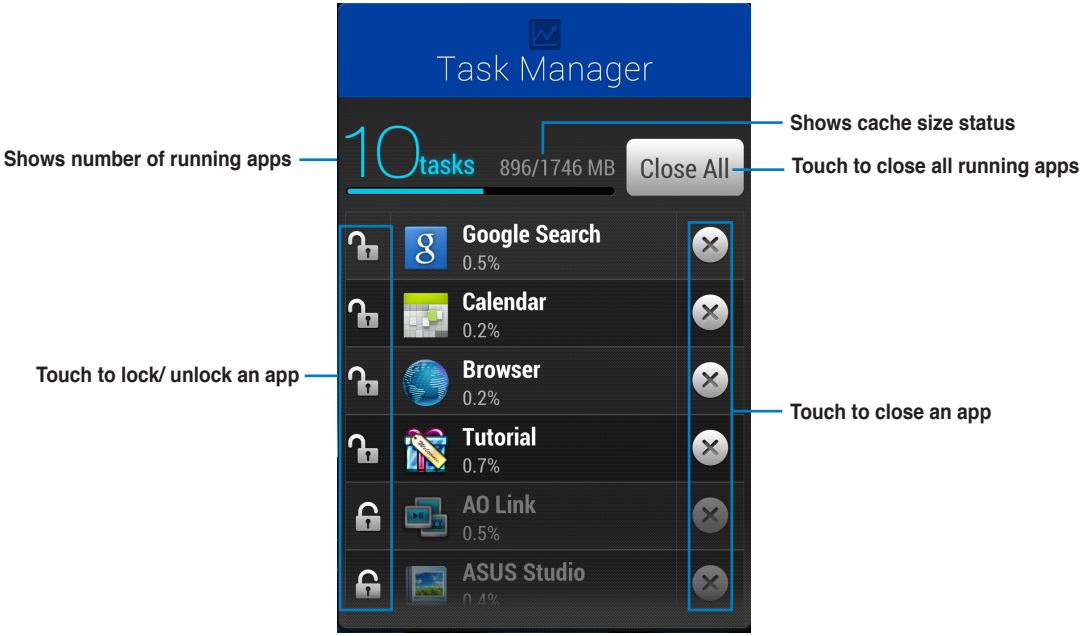
Task Manager

Task Manager is an easy and quick way to close running apps. It effectively cleans your cache and frees more cache space for your PadFone E.

1. Touch to go to the All apps screen.
2. Touch **Widgets** to display the widgets menu.
3. Touch and hold **Task Manager** to display the Task Manager app.



Additional options:

- To resize Task Manager, touch and hold anywhere on the app until the resize border appears. Touch and drag the sizing handle to adjust to your preferred screen size. You can do this to create additional room for more apps.
- To remove Task Manager, touch and hold the app until **X Remove** appears, then without lifting your finger, drag the app into **X Remove**.

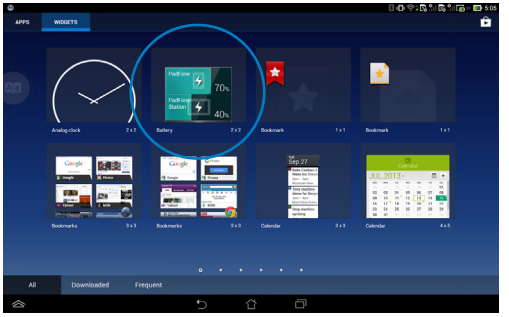
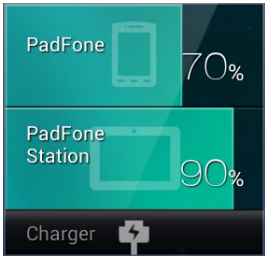
ASUS Battery

This special widget shows the individual battery status of your PadFone E and PadFone E Station by percentage and color. The more battery power, the brighter the color.

1. Touch to go to the All apps screen.
2. Touch **Widgets** to display the widgets menu.
3. Touch and hold **ASUS Battery** to display the ASUS Battery app.





4. The notifications panel also display the battery status. The battery status of the PadFone E and PadFone E Station are shown separately. When battery is low, the battery icon turns from blue to red with an exclamation mark. There will also be a warning sound to notify you when the battery is running low.
